

Changing what you wish anyone to see on your Grassroots account.

It is possible to update what personal details you wish to show on your Grassroots account.

- 1 Login to your Grassroots account using your Dutch Spotted member number as your login name and follow on with your unique password.
- 2 Near to the bottom left of the screen, find the orange MANAGE box and click on it. This opens up your Personal Details page.
- 3 Near to the bottom of the centre of the screen, look for DATA PROTECTION and click on the small download arrow and choose the option which suits you best.

Please note that Grassroots is not connected to our website in anyway so changing your option in Grassroots will not alter the member details on our website.

Check our website for your entry and if you decide this also needs updating, please download the “Member Website Listing form” from the Members Documents, complete it and send it to registrations@dutchspottedsheep.co.uk It will be acted upon as soon as possible.

Member forms can be found at:

Dutchspottedsheep.co.uk/members/resources/

Please note that Dutch Spotted Sheep Society will never sell or give your data to anyone.
